

Iowa State University Installs BigBelly Solar Compactor!

-Ames, Iowa On June 10, 2009 Iowa State University received Iowa's first BigBelly solar compactor. The unit was installed on a metal fork lift skid so that the unit can be moved to different locations for volume and usage testing. It is currently located on the South East corner of the library. Iowa State is planning an official press release in the beginning weeks of the fall semester when the students give BigBelly its volume test. Stay tuned for further information from Eco Wave LLC, Iowa State University, and BigBelly Solar.
